

Final

Step 1:

Cover your phone up with masking tape. Make sure to tape the sides as well. Then start to outline your case, go around the phone's buttons, camera and speakers.

Step 2:

Fill it in and after you're done filling it in, you should clean up the edges.

Step 3:

Pull your doodle off from your phone and the masking tape.

Step 4:

Get a container big enough to fit your doodled phonecase and fill it up with water. Then get your nail polist and drop some on the water. Get creative!

Step 5:

Once you're happy with the nail polish's marbling design, get your phonecase and dip it in the water.

Step 6:

Dry out your wet phonecase with a towel and let the nail polish set for 5 minutes.
